 DB Tech Europe

 DB Tech Europe

The **DB TECH EUROPE** network brings together Salesian VET centres and their networks in Europe, supporting and coordinating their work, with the aim of promoting excellence in VET, skills development and job placement opportunities for young people, particularly the most disadvantaged ones.

OBJECTIVES

- To foster the internationalisation of Salesian VET students’ profiles, as a key to increase potential employability, social and professional integration of youth in Europe.
- To increase the mobility and employability opportunities of VET students and staff across Europe, also by designing, testing and institutionalising innovative schemes of mutual cooperation among members.
- To promote the continuous development of teachers, trainers and managers of the Salesian VET Centres, qualifying, improving and supporting their educational, pedagogical, technical competences and their capacity to endorse the Salesian preventive system into the educational, training and employment-oriented services provided.
- To improve the quality, relevance, openness and inclusiveness of the Salesian training systems in Europe and increase the access to quality-based employment-oriented opportunities in Europe.
- To develop strategic alliances and multi-actor partnerships, able to connect the Salesian VET Centres with key actors of the VET ecosystem, to co-plan and deliver innovative integrated training and employment services able to impact the system level on an increased social and professional integration of young people in Europe.
- To promote at international level the Salesian “brand” DB TECH EUROPE, to raise awareness at European and international levels on the Salesian pedagogy, vision of VET and of vocational training as a professional choice and advocating for their endorsement in the VET strategy, agenda and policy development processes.
- To build up a reliable and accountable VET network, which has consistent and sustainable human and financial resources in order to effectively perform, achieve its goals in the long term, represent and foster the active participation of all the Salesian VET actors in Europe.

FINAL BENEFICIARIES OF THE DB TECH EUROPE NETWORK
